

Healthy. Happy. Home.

When family can't be there...We can.

Healthy. Happy. Home.

Change is good.
Take control of your life.

About Us

Lifestyles may change with age, but the ability to maintain a safe, independent life doesn't have to. That is why Caring Senior Service provides affordable, non-medical services and safety care products that give you the control you need to live healthy, happy and at home.

We have been assisting seniors at home for over 19 years and take pride in providing quality senior homecare. Let us help you make aging in place your first option. Call your local Caring Senior Service office today or visit us online at CaringSeniorService.com.

Care That Fits Your Lifestyle

Our services meet your needs and are tailored to you. Unlike other agencies, we charge one flat, hourly rate no matter what services you may require. You will receive one-on-one care from a caregiver that understands your needs and that will provide care on your schedule. Our caregivers provide any combination of these tasks:

Personal Care	Companionship
Transportation	Respite Care
Meal Preparation	Errand Service
Medication Reminders	Light Housekeeping

We know some situations happen unexpectedly and call for immediate care. Our staff answers calls 24/7 and can meet you that same day to start care.

Trusted Care

Because your safety and security are top concerns, our caregivers are carefully screened by conducting both identity and background checks through CSIdentity SAFESM. To ensure our clients receive quality service, each caregiver must pass our exclusive CSS Training Program. Client care is also monitored through regular home visits by our Care Managers. You will have a face-to-face meeting with your Care Manager and selected caregiver to make sure you are completely comfortable before any service is provided in your or your loved one's home.

Our caregivers have experience with various conditions including:

- Heart Disease
- Cancer
- Dementia
- Stroke
- COPD
- Emphysema
- Arthritis
- Post Surgery
- Diabetes
- Alzheimer's
- Parkinson's
- Hospice

Safety Care Technologies

We recognize that services alone do not fit all needs and budgets which is why we offer several in-home safety care technologies. These products offer 24/7 coverage so that you can maintain a safe, independent lifestyle. Available products range from personal emergency response buttons to activity alert systems that inform caregivers of potential emergencies such as bathroom falls. To learn more about our available in-home safety technologies, visit us online at CaringSeniorService.com or call us to conduct a FREE safety assessment.
