Honoring One's Wishes to Remain at Home

Providing ongoing care and assistance for someone you love is never easy. Give yourself a well-deserved break and the peace of mind knowing that your loved one is safe, happy and as independent as possible at home.

Assistance Home Care's team of professional caregivers can help provide a great start to the day and throughout. Make the most of each visit by allowing yourself to be your loved one's spouse, son or daughter and allowing us to be the caregiver.

Our team is committed to brightening up each and every day and encourages our clients to stay active and engaged in their favorite activities to help keep the mind and body fit.

Assist with getting up and around the home safely to help minimize the potential for falls

Provide personal assistance with toileting, bathing, dressing & grooming

Prepare nutritious meals and encourage hydration

Assist with medication reminders to minimize missed doses or mistakes

Provide help with household chores, laundry & light housekeeping

Transportation assistance with driving safely to and from errands, appointments & special events

Our Story

We are committed to caring for people who care for people.

Growing up in the house "on the corner" was truly special. Mom cared not only for our family, but for the whole neighborhood. When Alzheimer's knocked at her door, our family answered the call to care for her the way she cared for us. For 5 years, we provided daily care for mom while supporting dad and raising our three small children not too mention juggling everything else that goes along with a busy and hectic life. Helping honor our parents' wishes to remain at home was one of the most difficult, yet personally rewarding experiences of our lives.

Along the journey caring for our parents, we identified the truly incredible need that exists for families caring for a loved one at home. We dedicate each and every day to helping those family caregivers who are helping support their family's foundation and honoring their loved one's wishes to remain safe and as independent as possible at home.

Our Approach

We work with each family to develop a customized and flexible care plan to meet your unique needs and goals.

We are committed to educating families about the benefits of in home care and the various options that can provide the best support.

Through our free in home Discovery Visit, we take the time to understand each person's unique situation, personality and goals to ensure that we find the right team to exceed the family's expectations.

We have no minimums and no contracts to worry about. We can assist a family with 24/7 round the clock care as well as short visits lasting only an hour. Your schedule and hours can easily be adjusted according to one's ever changing care needs.

We strive to exceed our clients' expectations by following up and following through. We provide a high level of touch via our network of offices and our Office Care Teams which provide us the opportunity to visit regularly to ensure that we consistently go above and beyond to provide our families with only the highest level of in home care.

You can have peace of mind knowing that your loved one is receiving the best care and support from Assistance Home Care.
