

THE
COTTAGES
AT CHAPEL CREEK

Frisco, Texas

Memory Care

Licensed and certified assisted living residences for people living with Alzheimer's disease and other memory disorders.

We are caregivers, nurses, housekeepers, chefs, and more, but our most important role at The Cottages at Chapel Creek is as a *Cottage Family Member* to all of our residents and their loved ones. One resident may need the touch of a hand, while another needs to walk the outdoor paths, and one enjoys looking through their closet and talking about the past. Each person living with Alzheimer's or other memory disorders has needs and ways of being cared for that are as individual as they are.

About The Cottages at Chapel Creek

The Cottages at Chapel Creek are state-of-the-art, licensed and certified assisted living residences for people living with Alzheimer's and other memory disorders. Under the direction of our highly qualified, 24-hour staff and 7 days-a-week nursing, we provide personal care assistance, medication administration, meals, snacks and specialized activities. Our residents are cared for in a warm and compassionate environment tailored to meet each person's physical, mental and emotional needs.

The luxurious resident apartments at The Cottages at Chapel Creek are large, each equipped with a private bath and expansive windows. The community living spaces are well-appointed with high-end furnishings, oil paintings and custom lighting. All of the décor has been hand-selected; this attention to detail can be seen throughout the residence.

Memory Care Is All We Do

The Cottages have been serving Texas since 1997 and is family owned and operated by The Cottages Senior Living. Years of operating memory care residences have provided us with a deep understanding of what is needed for the best level of care for those living with dementia.

We understand how difficult memory loss can be on any family and we are here to support you and listen to you. Our caregivers are specifically trained to provide for those with memory impairments from Alzheimer's disease, Parkinson's, Lewy Body and other dementias. Our unique floor plan inspired by Mayo Clinic research, allows residents to live in a smaller, home-like environment. Individual townhomes, or cottages, of 12 residences each have their own family dining room, living areas and sunroom. Well-balanced meals are served family-style in each cottage. This smaller setting means we are able to develop personal and deep relationships with our residents.

All-inclusive pricing at The Cottages at Chapel Creek means no hidden fees and all services and care is included.
