

ABOUT US

Texas Angels Home Care is a family owned and operated agency founded by Julie Woodside and Todd Reeb. Julie is a business executive with 25 years experience and a kidney transplant recipient who has experienced home care first hand. She has the client's insight and understands the importance of being in your own home and living independently.

Todd is a registered nurse who also began his health care training at home, caring for his disabled brother. After a traumatic accident, Todd's brother was left paralyzed from the waist down. Todd and his parents cared for him at home, despite requests from the doctors and therapists to put him in a nursing home. After several years of rehabilitation and home care, Todd's brother lives independently and thrives.

Julie and Todd have a great understanding and appreciation of home care, living independently, home modifications for the elderly and disabled, and the how to help clients use their abilities to live happy, fulfilled lives.

Caring for his brother was a big influence on Todd becoming a Registered Nurse. He has been a nurse for over 28 years and has experience in geriatrics, home care, psychiatric nursing, critical care/emergency nursing and surgical nursing, (specializing in orthopedics and neurosurgery). We are pleased to use our skills and knowledge about health and home care for you and your loved one.
