## home care is best by far

---

People do better when cared for in the comfort and privacy of their homes.

Of course, this is not always feasible, but **aftercare** was opened to serve the real needs of patients looking for qualified care to help them recover at home.

## about **aftercare**

---

The founder of **aftercare** opened the registry as a direct result of her own frustration encountered when trying to care for her gravely ill mother at home. She found that qualified professional home care was hard to come by.

**aftercare** treats every person individually. Our attention is directed toward fulfilling each patient's personal needs.

We are fully trained to give reliable, compassionate, professional care at home.

Each nurse is screened as to competence, knowledge, and sensitivity to medical problems.

## home recovery can

---

- A. Make hospital stays shorter, costing less.
- B. Make recovery and care more comfortable and positive.
- C. Make recovery among family and friends.

## **aftercare** services include

---

- A. **Registered Nurses**-Licensed to give I.V.'s, injections, medications needing careful monitoring. (Insurance billing provided when applicable.)
- B. **Licensed Vocational Nurses**-Licensed to provide close monitoring of patients and specific medical procedures ordered by the physician (Insurance billing provided when applicable.)
- C. **Certified Nurses' Aides**-Providing skilled care, but not requiring complex medical procedures.
- D. **Attendants**--Providing personal care such as bathing, dressing, feeding, lifting.
- E. **Homemakers**-Responsibilities include housework, meal preparation, live in or out.

## **aftercare's** billing procedures

---

**aftercare** does not charge a placement fee to clients.

**aftercare** will provide your nurse with a time slip for you to sign, to verify hours worked.

All nurses are employee is of **aftercare** Inc. All payroll taxes, workers compensation and liability insurance are the responsibility of **aftercare** Inc.
